Social History

Reviewed Social History

Substance Use

Do you or have you ever smoked tobacco?: Current every day smoker

At what age did you start smoking tobacco?: 15

What is your current pack years?: Less than or equal to 10 Pack Years

Do you or have you ever used any other forms of tobacco or nicotine?: No

What was the date of your most recent tobacco screening?: 03/14/2025

Has tobacco cessation counseling been provided?: Yes

On what date was tobacco cessation counseling provided?: 03/14/2025

What is your level of alcohol consumption?: Occasional

How many years have you consumed alcohol?: (Notes: family history of alcohol use; avoids as much as possible)

Do you use any illicit or recreational drugs?: No

What is your level of caffeine consumption?: Occasional

Covid-19 Questions

Cough: No Fatigue: No Fever or chills: No Headache: No

Muscle or body aches: No Loss of taste or smell: No Shortness of breath: No

Sore throat: No

Congestion/Runny nose: No

Diarrhea: No

Nausea or vomiting: No **Home and Environment**

What type of child care do you use?: None

Do you have any pets?: Yes

Do you have smoke and carbon monoxide detectors in your home?: Yes

Are you passively exposed to smoke?: No Are there any guns present in your home?: No What is the fluoride status of your home?: Unknown Do you use insect repellent routinely?: Yes

Do you use sunscreen routinely?: Yes

Lifestyle

Do you feel stressed (tense, restless, nervous, or anxious, or unable to sleep at night)?: To some extent

Do you participate in social media?: Yes Do you wear a helmet when biking?: Yes

Do you use your seat belt or car seat routinely?: Yes

Marriage and Sexuality

What is your relationship status?: Single

Are you sexually active?: No

How many children do you have?: 0

Advance Directive

Is blood transfusion acceptable in an emergency?: No

Public Health and Travel

Have you been to an area known to be high risk for COVID-19?: No

In the 14 days before symptom onset, have you had close contact with a laboratory-confirmed COVID-19 while that case was ill?: No In the 14 days before symptom onset, have you had close contact with a person who is under investigation for COVID-19 while that person was ill?: No

Do you reside in or have you traveled to an area where Ebola virus transmission is active?: No

Have you processed blood or body fluids from an Ebola virus disease patient without appropriate PPE?: No

Have you recently or are you planning to travel to an area with Zika virus?: No

Are you currently sexually active with anyone who has traveled (within the last 12 weeks) to a Zika-affected area?: No

Education and Occupation

What is the highest grade or level of school you have completed or the highest degree you have received?: Some college, no degree Are you currently employed?: Yes

Who is your employer?: care provider

What is your occupation?: medical assistant, security guard, truck unloader

Diet and Exercise

What type of diet are you following?: Regular

What is your exercise level?: None

Activities of Daily Living

Are you able to care for yourself?: Yes

Are you blind or do you have difficulty seeing?: No

Are you deaf or do you have serious difficulty hearing? : No

Do you have difficulty concentrating, remembering or making decisions?: No

Do you have difficulty walking or climbing stairs?: No

Do you have difficulty dressing or bathing?: No

Do you have difficulty doing errands alone?: No

Are you able to walk?: Yes: walks without restrictions

Do you have transportation difficulties?: No Which of your hands is dominant?: Right

Gender Identity and LGBTQ Identity

Gender identity: Identifies as Male

Assigned sex at birth: Male

Pronouns: he/him

Sexual orientation: Something else, please describe

Imaging Results

US--PENILE ULTRASOUND (76857,93980) (#63152333, Final, 11/13/2024 8:00am)

EXAM: PENILE ULTRASOUND

HISTORY: 37-year-old male with genitalia lesion. Patient notes painless for skin mass for 6 months.

TECHNIQUE: Ultrasound was performed of the penis using endorectal probe with color and gray scale and multiple static images were obtained.

FINDINGS: In the anterior penis foreskin, there is a 15 x 8 x 12 mm sharply circumscribed homogeneous hypoechoic avascular thin-walled superficial lesion consistent with complex cyst. No internal septation, solid component or abnormal vascularity is present. Normal symmetric corpus cavernosum and normal corpus spongiosum. No deep soft tissue mass, cystic lesion or hyperemia.

IMPRESSION:

1. 15 x 8 x 12 mm superficial benign-appearing cystic lesion, possible hemorrhagic or mucin filled cyst. No deep soft tissue pathology is evident.

US, LOWER EXTREMITY, NONVASCULAR (#62167325, 11/12/2024 12:00am)

11/12/2024 4:36 PM FROM: Fax TO: 18557715224 PAGE: 001 OF 001

PATIENT: GARCIA, JOSE EXAM: US-RIGHT LEG (76881)

MRN: 446160 DOS: 11/12/2024

DOB: 8/22/1987 AGE 37 YEARS REFERRING: GEIGER, MICHAEL

EXAM: RIGHT LEG ULTRASOUND

HISTORY: Mass of lower limb.

TECHNIQUE: Ultrasound was performed of the lateral right mid calf using high resolution linear transducer with color and grayscale imaging.

FINDINGS: Sonography of the lateral right mid calf in the area of concern reveals intact soft tissue planes. No soft tissue masses or focal fluid collections. No other abnormalities observed.

IMPRESSION: No sonographically evident abnormality at the lateral right calf in the area of concern.

HSV 2 IGG, TYPE SPEC	Non Reactive	NON REAC	CTIVE			Final	01		
Please note reference interval change Current guidelines and recommendations do not recommend routine screening for HSV-2 in asymptomatic individuals, including those that are pregnant. The detection of HSV-2 IgG antibodies in a single sample indicates previous exposure to HSV-2 but does not give information as to the site of HSV infection or the timing of exposure. The predictive value of positive and negative results depends on the population's prevalence and the pretest likelihood of HSV-2. HSV-2 IgG testing performed using the Roche Elecsys HSV-2 IgG assay.
